

BAHCO EasyCut Xtreme TriMetal 3859

3859 Carbide Easy-Cut EZX Extreme Easy-Cut Carbide Bandsaw Blades

PRODUCT DETAILS

- Upgrade Bi-Metal to Carbide– this blade is more forgiving than a normal carbide blade and more used in the same way a bi-metal blade is used
- Extreme Wear Resistance – for longer blade life and new set pattern gives bigger span in cutting width
- Extreme Heat Resistance – for faster cutting and operational agility
- Extreme Ease of Use – no special feeds and speed, use in the same applications as bi-metal
- Extreme Cost Savings – Lower cost per cut because of a higher cutting performance
- More forgiving than a normal carbide blade
- Greatly improved blade life that outperforms regular bi-metal in most applications
- Reduce down time with lower number of blade changes and reduce blade inventory and carrying costs
- With Easy-Cut Xtreme blade you can cut faster whenever you need to do it
- NO break in – this product comes directly from our factory already run in with a patented edge perpetration
- Works on a wide variety of materials including structural and mild steels, stainless steels, cast iron, high temperature alloys and tool steels
- Cut “easy to cut” materials and difficult materials with the same blade – no need to change blades
