

BAHCO Sandflex® Top Fabricator Superior 3853

3853 Sandflex® Top Fabricator Coated
Sandflex® Top Fabricator Coated
Bandsaw Blades

PRODUCT DETAILS

- Bandsaw blade for cutting of structural steel, tubes and profiles
- Coated M42 HSS tooth material for long tool life
- Special PF tooth shape, reduces out of square cutting, stripped teeth, vibration, pinching consequently less broken blades
- Double set makes the teeth stronger, more resistant to tooth stripping and longer lasting
- Long tool life thanks to the M42 HSS teeth
- New improved high speed steel tooth edge gives a combination of higher hardness and higher toughness for long tool life
- Maximum cutting performance from the specially designed tooth design
